2.5 hours for each session
~ Each session is limited to 30 participants ~

Program Specifics:

9:00am – 11:30am

Functional Vision: Strategies for School-Age Assessment
Presented by: Shannon Bonenberger & Danene Fast

“What does this individual see?” The answer to this question can most often be found by completing a functional vision assessment (FVA). What is a FVA and how do I complete one? This workshop will answer this question, provide information on creating a FVA kit, explain the process of assessment and wrap-up with a hands-on experience that allows participants to test their skills and ask related questions.

12:30pm – 3:00pm

INFANTS AND TODDLERS AND PRESCHOOLERS...OH MY!

Functional Vision Assessment for Little Ones

Presented by: Kay Clarke & Bernadette Van Den Tillaart

A functional vision evaluation for a baby or preschooler? Hmm...how would that work? Come be a part of this workshop and find out! Together we will trace the development of vision skills in infants and preschoolers and explore developmentally-appropriate strategies and materials for conducting a meaningful functional vision assessment for this fascinating group of children.

Lunch will be on your own!

Interested in attending?

~ Registrations are due May 1st, 2009 ~
